HISTORY LESSON:

Governor's Signature Led to College 50 Years Ago

FIFTY YEARS AGO JULY 5, 1957 GOV. GOODWIN KNIGHT SIGNED ASSEMBLY BILL 4, the legislation that would bring into being the State College for Alameda County, later to become California State University, East Bay. e signing ceremony was the culmination of a three-year e ort by residents to establish a state college in southern Alameda County.

e e ort started in 1954 when the Hayward Chamber of Commerce began urging local legislators to carry a bill locating a state college in their city. In 1955, three bills were introduced in the Legislature to establish an "Alameda State College." Two of the bills didn't survive, but Hayward Assemblymember Carlos Bee was able to get his bill passed in the Assembly. en, it was defeated in the Senate.

In January 1957, six bills to create the college were introduced and five were killed in the Assembly. Bee, however, managed a 72-0 vote from his Assembly colleagues, then collected allies in the state Senate, where it passed by a vote of 29-8. However, it still needed the governor's signature to become law.

On July 4, 1957, Bee learned that Gov. Goodwin Knight would be touring the Alameda County Fair in Pleasanton and cornered him there to warn him that the bill would expire if the governor didn't sign it. A day later, Knight signed the legislation in his Sacramento o ce with Bee on hand along with H. Marshall Hansen, chairman of

the Alameda County State College Committee.

By September 1957, the State Department of Education had recommended that the new college be located within the 64 square miles comprising Hayward, San Leandro and Oakland.

e institution would not see its first students for two years and there were controversies to come over proposals for its location, but there was no stopping the momentum that would result in construction of the new state college. Q Cal State East Bay's rst basketball team helped put the fledgling university on the map in 1961, and its members built lifelong friendships.

Bill Vandenburgh spent the early days of his collegiate coach ing career playing on the losing side of a money game. As basketball coach at Fresno State in the 1950s, Vandenburgh o en felt at a disadvantage to competitors

the northwest side of the Hayward campus stood an old firehouse slated for demolition to make way for the campus construction. But until they tore it down, members of the basketball team lived there.

" e first thing a coach does is get familiar with the maintenance people," Vandenburgh said. "I arranged it with them to let some of the guys live there. Faculty members donated some furniture. We got things from

WHEN EMERITUS MATHEMATICS PROFESSOR RAINIT SINGH SABHARWAL PASSED AVAY IN JULY 2006. his family and friends looked for a way to preserve his legacy of teaching and community service.

e best way to do that, said Paul Sabharwal, was to carry on his father's dream of establishing a Cal State East Bay program in Sikn and Punjabi studies

After his father's death, the Sabharwal family, the Palo Alto-based Sikh Foundation and friends loohe n7w9(e)2(n612(h(e)-1,D-1483300010T)17(o)-)-6(n)4(m)-ion mu

To me this is courage beyond belief. For these people to do that was just heroic beyond measure. "

> **Michael Emerson CSUEB** student

IN CONSIDERING NEW WAYS TO an interest in helping tell the CSUEB REACH OUT TO HIGH SCHOOL STU DENTS WHO WILL BEGIN ATTENDING COLLEGE IN THE FALL OF 2008 AND BEYOND, Cal State East Bay realized that perhaps nothing would be more e ective than the stories that students themselves tell. And with the Internet now the preferred means for prospective college students to explore highereducation options, Cal State East Bay decided to ask seven freshmen to share their first-year experience, online, using a university-sponsored blog — a Web based log or journal.

is fall these freshmen began taking the CSUEB story to the blogosphere — the world of Web logs — each telling their own stories about "life at e Bay." With a common goal of sharing their thoughts about classes, professors, new friends, and campus activities, the bloggers with majors ranging from psychology to history and from liberal studies to engineering and communications have unique personal perspectives and reasons for participating.

Antwan Terry, an engineering major from Atlanta, GA, whose objective is to own his own business, decided to participate because "I felt it would put a fun twist on my freshman experience."

View, who is majoring in business administration with an emphasis in marketing, plans to use her blog "to be truthful about my experience in college." Andres, whose goal is a career in event management, says she wants to use her blog to tell future students that "part of being a college student is knowing how to balance school, work, and family and friends."

e bloggers were chosen from among 50 volunteers who expressed

story through their own eyes. " ey were selected for their diverse interests and backgrounds, and each is free to describe what their first year college experience is like, in their own words,' said Dan Bellone, CSUEB marketing communications manager.

ey're not paid for their blogging, but each was given a digital camera to add pictures to the words in their blog entries. Lex Perez, a communication major from Rancho Cucamonga, CA who is planning a career in journalism, admitted "at first I was attracted to the idea of a free camera, but then I realized what a great opportunity this would be to express myself and to get the message out about the school."

At least once per week the bloggers add to their online journals, filling them with stories and photos describing an important new chapter in their lives — their first year at CSUEB. eir electronic diaries can be read by anyone visiting the home page of Cal State East Bay's Web site at www.csueastbay.edu.

Each blogger has his or her own style of communicating. ey write as if they are updating close friends on what's happening in their lives as new college students.

"On ursday i went to a concert Samantha Andres of Mountain with one of my bestest friends in the entire world." wrote Blake Bertrand, a history major from Brentwood, in his first blog entry. "I like to talk about how school is (and) what activities I'm doing, like going to concerts with my friends and going to the city," he said.

> Bertrand, who lives in the Pioneer Heights student apartments on

Alumni Inspiration Bishop Bob Jackson

WHEN BOB JACKSON WAS TAKING CLASSES AT CAL STATE EAST BAY in the early 1970s, he questioned the necessity of taking required courses like probability, economics, and geography. Psychology, however, was another matter.

"I studied psychology at Cal State because I was mainly interested in why I was doing the things that I was doing," Jackson said. "I wanted to have a better understanding of the mind and how the mind operated."

More than 30 years later, as Bishop Bob Jackson, he fully understands how everything in Oakland, followed by three more years at he learned at the university, and in every other stage of his life, has had a direct connection to

who he is, what he does, and the success he has had. He's also confident that the more than 7,000 church members he preaches to during three services every Sunday at Acts Full Gospel Church of God In Christ in East Oakland have learned and benefited from his lifelong journey.

Following Jackson's four years of military service as a jet mechanic in the United States Air Force from 1964 to '68, he studied general education during two years at Merritt College Cal East Bay, where he majored in psychology.

"I'm very thankful to Cal State East Bay
